EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In claim 1,

line 1, the status identifier "presently amended" has been changed to --currently amended--.

In claim 27,

line 1, the status identifier "presently amended" has been changed to --currently amended--.

In the Preliminary Amendment filed 8/23/2003, in the paragraph "Cross-Reference to Related Applications",

line 2, after "April 18, 2002", the following has been inserted:

-- (now U.S. Patent No. 6,699,578) --.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose color-corrected transparent films wherein: (1) the color-correcting pigment is homogeneously dispersed in a distinct color-correcting layer adjacent to a metallized transparent film layer, wherein the color-correcting layer has a color which corrects the color deficiency of the metallized film layer (claim 1) or methods of making a color-corrected transparent films wherein the color-correcting pigment is homogeneously dispersed in a distinct color-correcting layer adjacent to the metallized transparent film layer, wherein the color-correcting layer has a color which corrects the color deficiency of the metallized film layer and wherein the distinct color-correcting layer is: (2) an adhesive layer (claims 27, 58); (3) is a curable polymeric coating (claims 42, 66); or (4) is a laminating adhesive bonding two layers of the film layer together (claims 50, 74), wherein the term "pigment" refers to a particulate colorant as defined on page 5 of the specification (as distinguished from dyes which are generally soluble in the host resin). The prior art typically discloses the use of dye-type colorants in transparent films or otherwise fails to suggest the incorporation of particulate colorants in layers distinct from the base metallized film layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
